

VDI Instruction for SAS Access

1. Need to have DUO (needs to be push)
2. Go to [Myappsvdi.utsa.edu](https://myappsvdi.utsa.edu)
3. Launch VDI and will get push
4. Need to download client under “VDI Setting” and need to download horizon’s client

5. Need to click on “Setting” to map the drive a local drive on student computer

6. Click “Drive Sharing” and then “Add” and pick a folder that you are going to store your folders (e.g., I called my “VDI files” on my C-drive). Need this to transfer files back and forth. Note, you need to do this on YOUR computer outside of the VDI environment.
