Week 1 Meeting Agenda

I. Introductions

a) Getting to know each other.

b) Let me know what your goals are and how I can help you achieve them with this class.

II. Reviewing the course page and the syllabus

a) HOME > Announcements, Syllabus, Communications.

   i) Visit the course home page and check announcements regularly.

   ii) Utilize the weekly discussion boards. Do not forget to subscribe each week.

b) MODULES > Weekly Course Work, Supplementary Material

   i) Each module contains an overview, meeting agenda, lecture notes, videos (if there are any), demonstrations, assignments, discussion board, and supplementary material.

   ii) New content will be posted under MODULES every week.

   iii) Supplementary Material includes SAS documentation, demonstration files, and so on.

c) ASSIGNMENTS

   i) Timed and not-timed assignments.

   ii) Short, extended, and comprehensive practice opportunities.

   iii) How to submit the assignments?

d) The course project and the SAS Curiosity Cup.

III. Installing VDI

a) I will demonstrate how to install VDI (Virtual Desktop Infrastructure) and access the SAS software.

b) We will download and save the ORION dataset to student P:/ drive.

IV. Other options to access

a) SAS On Demand for Academics

   i) Go to: https://www.sas.com/en_us/software/on-demand-for-academics.html

    ii)   If you already have a SAS profile, click Access Now and enter your login credentials. Otherwise, create a SAS profile and then click Access Now.

    iii)   Select the SAS tool you want to use, i.e., SAS EG, and proceed to follow the instructions.

  b)   SAS is also available for discounted purchase from the UT ServiceNow TX Shop; it requires a UT EID.

V. Other useful links

  a)   Go to: https://business.utsa.edu/wp-content/uploads/2020/03/COB-Student-Software-Resources-2020.pdf

  b)   Also, go to https://my.utsa.edu/ and select *ASAP* (under student resources) and click on the *Software Download* tab to find other software.

VI. Q&A
